SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Normal Operations	Normal Operations	Normal Operations	Normal Operations

Cal OES COASTAL REGION

- Nothing significant to report.

Cal OES INLAND REGION

- Nothing significant to report.

Cal OES SOUTHERN REGION

4.5 Magnitude Earthquake, San Bernardino County

- On 05/08/18 at approximately 0449 hours, a verified M4.5 earthquake occurred 6.9 miles north of Cabazon (located between San Bernardino, San Bernardino County and Palm Springs, Riverside County) at a depth of 8.5 miles in an area that lies between a north and south branch of the San Andreas fault and several other smaller faults.
- This initial quake has been followed by several aftershocks, the largest being a M3.2.
- Earthquake activity of this nature is not unusual for this area.
- At the time of this report, over 8,000 people have reported that they felt the earthquake.
- There were no reports of injury or damage.
- Duty Officers at the Department of General Services, U.S. Geological Survey, and the Cal OES Earthquake, Tsunami & Volcano Program Duty Officer continue to monitor the situation.

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

Strong Northerly Winds With Low Relative Humidity (RH) Friday and Saturday

High pressure over the region will move east this afternoon and be replaced by a low pressure trough Wednesday and Thursday. A few light showers are possible in far Northwest California late today through early Wednesday. Temperatures will be 8-10 degrees above normal today, near normal Wednesday, and back up to 5-8 degrees above normal Thursday. A northerly downslope surface wind pattern will begin on Thursday, peak on Friday and early Saturday, then continue at lighter speeds until midday Sunday. Peak gusts of 35-40 mph wind-prone areas from western Sierra slopes to coastal mountains are anticipated Friday through early Saturday. Temperatures 8-12 degrees above normal with Minimum RH 10-20% Friday to Sunday.

SOUTHERN CALIFORNIA

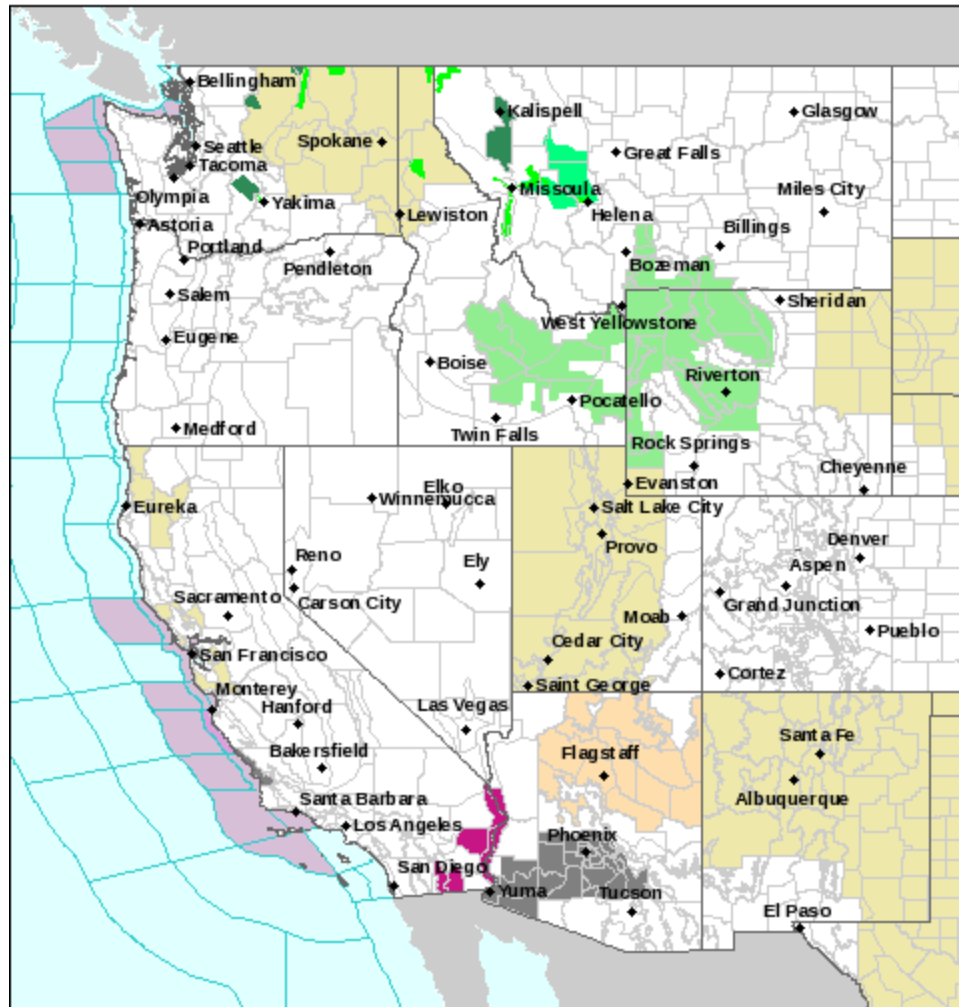

Gusty north winds at night across Santa Barbara County and the Grapevine Area through Wednesday

Strong westerly afternoon winds through the desert passes Wednesday through Friday

There will be little change in the weather through Wednesday as a ridge of high pressure remains over California. Temperatures will be around 10 degrees above normal away from the coastal areas, with upper 60s and 70s across the mountains and 80s to low 90s in the valleys. Minimum humidity will be mainly in the single digits and teens away from the coastal areas. North winds of 15 to 25 mph with gusts to 40 mph will surface across Santa Barbara County and the Grapevine at night through Wednesday. An area of low pressure will form over the Pacific Northwest causing temperatures to cool a few degrees and humidity to increase to 15% to 30% away from the deserts Thursday. This low pressure area will drop into the Great Basin Friday and then remain nearly stationary through early next week causing near to a little below normal temperatures and fairly high humidity away from the deserts. Afternoon west winds of 20 to 40 mph with gusts to 60 mph will surface across the desert passes Wednesday through Friday. The marine layer will become deep Friday through early next week, with morning low clouds and fog making it over the lower coastal mountain slopes. Isolated afternoon thunderstorms will be possible over the Sierra Crest Saturday through early next week.

Cal OES LAW ENFORCEMENT MISSIONS

New Cal OES Law Missions

- **2018-LAW-46570, 05/07/18, 0737 hours:** The Air Force Rescue Coordination Center (AFRCC) advised the California State Warning Center (CSWC) of an Emergency Position Indicating Radio Beacon (EPIRB) that had been activated. The EPIRB was determined to be on land plotting in a cluster/six mile radius of coordinates at 33° 48.618 N., 118° 6.043 W. placing it within the city of Long Beach. AFRCC also requested a Cal OES mission number from the CSWC and activated the California Wing Civil Air Patrol (CAWGCAP) ground teams to assist in locating and silencing the EPIRB. The Los Angeles County Sheriff's Office (LASD) Emergency Operations Bureau was notified of the EPIRB and accepted the mission coordinating a response with Long Beach Police Department (LBPD). **Update, 05/07/18, 1454 hours:** LBPD sent two officers to check the area but were unable to locate the source of the activation. **Update, 05/07/18, 1727 hours:** CAWGCAP located and secured EPIRB at 3327 Roxanne Ave in Long Beach. **Mission Closed.**

Ongoing Cal OES Law Missions

- **2018-LAW-46486, Reopened 05/07/18, 1444 hours:** Nevada County requested 20 Type I/II ground searchers and 10 cadaver K9 teams (HRD resources) for two 6 hour operational periods beginning 05/08/18 at 0600 hours till noon and again on 05/09/18 from 0600 hours till noon. All requested resources are to meet at the Incident Command Post (ICP) located at the intersection of Benner Quaker Hill Rd. and Red Dog Rd. Placer, Marin and El Dorado counties accepted the mission and are sending Type I/II ground searchers. SAR K9 Mutual Aid Coordinator secured 5 cadaver (HRD) K9's from the (California Rescue Dog Association) CARDAs. **Mission Ongoing.**

Cal OES MISSION TASKING

Cal OES Missions

- **2018-IREOC-45244:** Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties. (On Scene – Long-term assignment)
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County (Coordinating)
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)

Cal OES

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
